**Tools:**              Git,Postman, npm, Yarn, Trello, Webpack, VSCode, Jest, react-testing-library, ESLint, Browserstack

## EDUCATION

**Loyalist College**                                                                          Jan 2023 - Present
Post-graduation in Computer Software and Database Development                                  Toronto, CA

**Ganpat University ( CGPA - 8.3 )**                                                           Jan 2016 - Jan 2020
B-Tech in Computer Science                                                                     Mehsana, India

# CERTIFICATES

FreeCodeCamp - [JavaScript Algorithms and Data Structures](#)
FreeCodeCamp - [Responsive Web Design](#)
CS50s Mobile App Development with React Native

# PROJECTS

**Amazon UI clone**
- A Frontend GUI looks like amazon built with ReactJS
- Used various CSS techniques to make GUI responsive and user friendly.
- Technology Stack - JavaScript, ReactJS, Firebase,HTML, CSS
- Project Link - [https://clone-31f90.firebaseapp.com/](https://clone-31f90.firebaseapp.com/)

**SOPSmart**
- A web application to create a Standard Operating Procedure document management platform called "SOPSmart" as a SaaS product for pharmacies across the UK.
- Bulk SOPs creation: saved a ton of time compared to creating it individually
- Tracking SOP views and signatures as well as sending notifications
- Ensuring compliances and keeping action logs
- SOP Review audit trails with timelines
- Share SOPs to third parties for remote signature
- Version Control of SOPs and their activities
- SOP delegation workflow
- Create questioners to test the understanding of SOPs

**Logistic Mobile Application**
- Logistic Mobile application built with React Native
- A mobile application to bid on generated leads of brokers, Track order history, Generate payment slips, View status of the delivery status and much more!
- Technology Stack - React native, NodeJS, REST API, SQLite, Firebase, Bootstrap
- Project Link - [play.google.com/drivelt.mobileapp](play.google.com/drivelt.mobileapp)

**Face Detector**
- A Face Recognition Web application built with ReactJs and Machine Learning APIs to Locate face on Uploaded Images
- Created user authentication with authentication libraries
- Technology Stack - ReactJS, NodeJS, ExpressJS, PostgreSQL, ContextAPI, CSS3
- Project Link - [https://smartbrain-front-vx8f.onrender.com](https://smartbrain-front-vx8f.onrender.com)
