Tools: Git,Postman, npm, Yarn, Trello, Webpack, VSCode, Jest, react-testing-library, ESLint, Browserstack

EDUCATION

Loyalist College   Jan 2023 - August 2024
Post-graduation in Computer Software and Database Development   Toronto, CA

Ganpat University (CGPA - 8.3)   Jan 2016 - Jan 2020
B-Tech in Computer Science   Mehsana, India

CERTIFICATES

FreeCodeCamp - [JavaScript Algorithms and Data Structures](#)
FreeCodeCamp - [Responsive Web Design](#)
CS50s Mobile App Development with React Native

PROJECTS

SOPSmart
- A web application to create a Standard Operating Procedure document management platform called "SOPSmart" as a SaaS product for pharmacies across the UK.
- Bulk SOPs creation: saved a ton of time compared to creating it individually
- Tracking SOP views and signatures as well as sending notifications
- Ensuring compliances and keeping action logs
- SOP Review audit trails with timelines
- Share SOPs to third parties for remote signature
- Version Control of SOPs and their activities
- SOP delegation workflow
- Create questioners to test the understanding of SOPs

Logistic Mobile Application
- Logistic Mobile application built with React Native
- A mobile application to bid on generated leads of brokers, Track order history, Generate payment slips, View status of the delivery status and much more!
- Technology Stack - React native, NodeJS, REST API, SQLite, Firebase, Bootstrap
- Project Link - play.google.com/drivelt.mobileapp

Amazon UI clone
- A Frontend GUI looks like amazon built with ReactJS
- Used various CSS techniques to make GUI responsive and user friendly.
- Technology Stack - JavaScript, ReactJS, Firebase,HTML, CSS
- Project Link - https://clone-31f90.firebaseapp.com/
